“ I'll miss Uncle Anthony telling me stories about south Philly. His family and friends and where they lived, and grew up in the old neighborhood. Loved going to the senior center and seeing his friends. Loved walking around the city. Loved going to the library to get books. He loved to get books about different cultures. Like to watch silent movies. He will be missed by family and friends. Nephew - Arnold J Nuzzi Jr.

“ Uncle Anthony will always be remembered as someone in the family who was very intellectual and loved to read for the sake of learning. I will always remember the the intellectual conversations he wanted to have in order to teach me something. He was a very loving man, who never had a mean bone in his body, and loved helping others. Based on his strong religious faith, uncle Anthony would constantly sacrifice his needs over someone else's. I had some much admiration for the way my uncle lead his life. As Sinatra would say, he did it his way. I know I & his family will miss his dearly.

Sincerely:

Nephew - Joseph P. Nuzzi III
